

## **Prof. Goeschen**

**Prof.Dr.med.Klaus Goeschen was born in 1948 in Kiel (Germany) and studied medicine at the University of Kiel and Lübeck from 1966 to 1972. He received his obstetrical and gynecological training at the Martin-Luther-Hospital Berlin (Medical Director Prof.Dr.Gerhard Martius). Scientifically he was working in the fields of ovarian cancer, inflammation, twins, breech presentation and assessment of gestational age in premature babies. With Prof. Martius he published his first textbook about “Obstetrics and Gynecology in Question and Answer” and wrote several chapters for other textbooks.**

**From 1979 to 1985 he was holding the position of Assistant Professor at the Free University of Berlin Department Unit of Perinatale Medicine (Medical Director Prof.Dr.Erich Saling). Scientifically he was working in the fields of prostaglandins, oxytocin, cardiotocography, fetal blood analysis, hypotension in pregnancy, induction of lung maturity, drug treatment in pregnancy, caesarean section, epidural anaesthesia, fetal dystrophia and diseases in pregnancy. During this time he published more than 100 scientific papers and gave more than 160 lectures in various countries of the world. In 1979 the first edition of his book “Cardiotocography Practice “ was published. The 6th edition has been available since 2004. Clinically he was working as assistant medical director at the the Department of Obstetrics and gynecology at the Berlin Neukölln Hospital, in which the above mentioned unit of Perinatal Medicine was included. With more than 3000 deliveries and more than 5000 operations per year this hospital was one of the biggest in Germany.**

**In connection with his university lecturing qualifications he worked at the Cornell University in New York with Profs. Dr. Anna-Riita and Fritz Fuchs. This cooperation resulted in numerous scientific publications and lectures. In 1984 he got the “Venia legendi” and the titel of “Private Lecturer” at the Free University of Berlin.**

**From 1985 to 1995 he was holding the position of assistant medical director at the Department of Obstetrics and gynecology, University of Hannover (Medical Director Prof.Dr. Jörg Schneider and Prof.Dr. Adalbert Majewski). He focused**

mainly on non-invasive, organ-preserving laparoscopy and vaginal reconstructive pelvic surgery as well as cancer surgery. In cooperation with Dr. Pluta he developed the first computer program for the Perinatal Data Base in Germany. In 1989 he obtained the position of a Professor of Obstetrics and Gynecology at the University of Hannover.

From 1995 to 2001 he was Medical Director at the Department of Obstetrics and Gynecology at the Klinikum Osnabrück. He set up his priorities in vaginal, abdominal and laparoscopic reconstructive pelvic surgery. In cooperation with Prof.Dr. Peter Petros, Perth Australia, he created new vaginal, minimal-invasive operative techniques for reconstructive pelvic floor surgery on the basis of the Integral Theory and performed the first operations in Europe. Since 2000 he has been Preceptor of the Australasian Association of Vaginal and Incontinence Surgeons (AAVIS).

### **Curriculum vitae**

**Name:** Dr. med. (RO) Ion-Andrei Müller-Funogea

**Born:** 02.10.1961 in Bucarest (Romania)

**Marital status:** Married - 1 Daughter

**1985 – 1989:** 4 years specialising for general medicine after study of medicine at the University of Bucarest

**1990 – 1995:** Residency for obstetrics & gynecology St. Clemens Hospital Geldern/Germany

**1995 – 1997:** Senior officer in the same hospital

**1998 – 2001:** Chief officer obstetrics & gynecology Luisenhospital Aachen/Germany

**1998:** Promoter of the special ambulatory for treatment of the pregnancy diabetes in Luisenhospital

**1998 – 2001:** Head of the ambulatory for prenatal ultrasonographic and invasive diagnostic

**2001 – 2002:** Chief officer Bethesda Krankenhaus Duisburg, specialised in operative urogynecology and gynecologic oncology

**since Oct. 2002:** Head of the departement for obstetrics and gynecology in MZ Kreis Aachen (Regional Hospital Aachen) Germany

**Competence and special skills :**

- 1991: Certificate of Competence in rescue medicine**
- 1996: Acupuncture for obstetrics & gynecology**
- 1999: Acupuncture Diplom A**
- 1999: Certificate of Competence in Ultrasound 10-14 Weeks (Prof.Dr. Nicolaides, London)**
- 2000: Certificate of Competence Doppler-ultrasound**
- 2000: Certificate of Competence in Breast-ultrasound**
- 2001: Certificate of Competence in foetal malformation Ultrasound-DEGUM Step II (German Ultrasound Foundation)**
- 2001: Special Graduation – special obstetrics and perinatology**
- 2005: Certificate of Competence for diagnosis and therapy of the incontinence and pelvic floor disorders (German Continence Society)**
